State Patrolman, Other Injured In Vehicle Collisions

Officer Crashes While En Route To Investigate Collision

State Highway Patrolman Carroll Maynard of Truckee is in the Tahoe Forest Hosptal recovering from injuries resulting from an automobile collision near Hirschdale Saturday at 11 p.m.

The officer was en route to investigate a crash just west of the Nevada state line. He came up behind a vehicle just west of Hirschdale and sounded the siren. The car ahead pulled to the right as far as possible and Maynard started to pass before he saw a car approaching in the opposite direction on the crest of the hill.

Maynard and the approaching car both swerved but too late to avoid a sideswipe collision. The local officer suffered back injuries and one woman, Mrs. Aileen Mattson of Napa, a passenger in the other vehicle driven by Clarence Iee Pauich of San Francisco, had minor injuries. Pauich and his wife and Mattson escaped injury.

Patrolmen William Gautsche and Martin Sturcke were called to investigate.

Second Mishap

The accident which Maynard was to investigate involved two cars, one driven by Carlton F. Corey of San Francisco and the second by an unknown person who left the scene before investigators arrived. The vehicle was register ed to Lloyd Phillips of Yuba City. Patrolman Sturcke said the second car apparently went over the center line. No one was injured but both cars were damaged.

Driver Cited

Jess O. Marin, Truckee, was cited for being on the wrong side of the highway after his car and a pickup driven by Norman Maylor collided two miles east of the foot of Donner grade. Patrolman Roy Stallard investigated.

Summit Crash

Cars driven by Lois Grant, San Francisco, and John C. Swanson, Moline, Ill., collided Friday afternoon near Soda Springs but no one was injured. Patrolman Sturcke cited Swanson.

LAST RITES HELD FOR MRS. BELLE EUER

Funeral services were held at Folsom on Saturday for Mrs. Ethel Belle Euer of Latrobe, following her death on August 11.

Mrs. Euer was born and spent her life in El Dorado County and after her marriage to the late William Euer the couple spent their summers on their cattle ranch residence at Sage Hen. She had continued the trips here each year and had many friends and acquaintances in the district.

Dale Euer, a son and Mrs. Ivan Lehman, a daughter and a sister, Mrs. Annie Day of Placerville are survivors.

Hostesses Named For Wyethia Club Meeting

Mrs. Charles Heller will preside at the business session of the Wyethia Club meeting to be held at 8 p.m. in the clubhouse tomorrow.

Hostesses for the evening will be Mesdames Heller, Eugene Welch, and A. Benjamin.

Renee Hall, daughter of Mr. and Mrs. Robert Hall of Long Beach will entertain with a program of dances.

The following week, August 26 during the afternoon hours, the annual silver tea will be held in the garden of the I. Firpo home at Gateway Park.

THEFT OF JEWELS AT RESORT IS REPORTED

Dr. Harold Gerber, Chicago, Ill., notified sheriff's deputies of the theft of more than $2500 worth of clothing, jewelry and photographic equipment from his cabin at Crystal Bay.

The Chicago man told deputies he was missing a mink stole, valued at $1000; diamond wristwatch, $1200; diamond tie pin, $150; $200 in cash and a movie camera and accessories.

Neither sheriff's officers or Dr. Gerber could find any signs of forcible entry to the cabin. At the same time, however, the physician said he was "sure" the cabin was locked.

In addition to the high-priced items listed above, the thief got away with several less-expensive articles of clothing and jewelry.

Back From Arizona—

Mr. and Mrs. Hugh Smith and children left Scottsdale, Ariz., this week, Smith having completed his summer session at the university in the neighboring state. They are returning to Truckee where he will teach in the elementary school this year.

Tahoe Post Office Others At Lake Are Theft Victims

TAHOE CITY — Thieves broke into a window of the Tahoe City Postoffice, sometime during Sunday night, taking high denominational stamps of undisclosed value, according to Postmaster Oliver Corona.

J. E. Stokes, postal inspector at Reno, assisted by Deputy Harry Johanson, made the investigation, but late yesterday no important leads had been found on suspects.

Corona said the total loss was $586.56, of which about 95 per cent was in stamps, with possibly $30 in cash being taken. The robbers did not succeed in opening the safe in the office.

Lakewood Lodge, at Homewood, owned and managed by Mr. and Mrs. Fred Cunningham was also reported robbed Sunday night when more than $500 was taken from a locked cabinet and an undetermined amount also taken from the cash register.

Mrs. Cunningham told investigating officer Johanson that she recalled seeing a car parked in front of the establishment for several days and believed that three or four men may have been in and about the car at various times during that period.

Governor To Name Compact Board

President Eisenhower last Thursday signed a bill authorizing a compact between California and Nevada on use of water from Lake Tahoe and three interstate streams —the Truckee, Carson and Walker rivers.

The compact is intended to determine each state's right to the waters involved. The bill was prompted by the prospective construction of the Washoe reclamation project in Nevada and California which would take water from the streams involved.

The bill also authorized approval of federal representation in the negotiations of the water problems.

Gov. Goodwin J. Knight has indicated he will appoint his seven-man committee to serve on the compact for California shortly after September 7. The compact provides for one representative from Nevada and Sierra counties, one from Placer County, one from Alpine County, one from Mono County and one member at large, with the state engineer the seventh member.

Nevada, it is understood, has already named its seven-member committee.

NEW CAR BURNED AS DRIVER ESCAPES

A new 1955 Chevrolet sedan, owned by the Herz-Rent-A-Car, Sacramento, was destroyed by fire after it was wrecked near Hirschdale last Thursday morning.

The driver, Walter E. Herman, 36, San Francisco, apparently escaped injury and proceeded on to Reno.

State Patrolman Carroll Maynard, who made the investigation, said the vehicle apparently got out of control, ran off the road and overturned after plunging down an eight-foot embankment. The officer said the car landed in the only clear space in the area and a serious forest fire was thus averted.

The forest service suppression crew from Truckee was called to extinguish the blaze and prevent it from spreading.

School Driver Expires On Local Vacation Trip

William Anthony Malone, 64, a driver for the board of education at San Francisco, expired at Donner Lake Sunday at 3 a.m., apparently the victim of a heart attack. Malone was on vacation with his wife, Rowen.

The Truckee Colonial Mortuary took charge of the body which was shipped to Chicago for funeral services and interment.

To Menlo Park—

Mr. and Mrs. A. J. Ketman who have been spending the summer at Carnelian Bay, have returned to their place in Menlo Park.

Zoning Ordinance Given Approval At Chamber Meet

Committee Named To Act As Guide For County Planners

The Truckee Chamber of Commerce meeting at the high school cafeteria Tuesday night unanimously adopted a resolution calling for an ordinance to regulate building and sanitary facilities in this area in anticipation of an influx of people and an accelerated building program resulting from the announcement that the 1960 Winter Olympic games will be held at Squaw Valley.

Yesterday Chamber President Hal Welch, who presided at Tuesday night's session, appointed six of the seven proposed committeemen to act in an advisory capacity and cooperated with the Nevada County Planning Commission and the board of supervisors in drawing up a suitable ordinance and working out details.

This committee will comprise Bud Bradshaw and Mrs. Edith Welch of Donner Lake, James Sherritt and Jack Woodard of Donner Summit, Ed Grant of the Tahoe National Forest and C. A. Tollefson of Truckee. Another member will be named from the business people of Truckee to serve on the committee.

Under terms of the tentative ordinance, which will be presented to the planning commission August 30, the area covered will extend from Kingvale on Donner Summit to Hirschdale nine miles eat of here and roughly will include all the land half a mile each side of U. S. Highway 40.

Lot Size

There was some discussion relative to the proposed minimum of 10,000 square feet for each building lot where no public sewer connection is available and where a septic tank is used. This, in the opinion of Lee Nesbit, who represented the Armstrong Realty Company at Donner Lake, was an exaggerated area.

Under terms of the ordinance, the planning commission, working in cooperation with the local advisory committee, would have jurisdiction over the type of constructions, sanitary facilities and other details to prevent undesirable buildings.

The ordinance may be declared to be of temporary nature, only to serve until such time as the board of supervisors, after receiving the report from the planning commission, is prepared to take final action upon a zoning ordinance.

Survey Required

A survey must be made of the region proposed to be zoned and maps drawn to designate the zones specified. In the meantime, the chamber is hopeful of having the temporary emergency ordinance passed to prevent the construction of buildings which might mar the district for years after the Olympics are concluded.

The plan has the full sanction and cooperation of the state housing authorities.

Opposition to the plan which was voiced at a recent meeting of the planning commission by Dennis Jones of Soda Springs was not forthcoming at Tuesday night's meeting and those present apparently favored the action unanimously.

Car, Truck Collide On Road, Driver Is Cited

No one was injured when a car driven by Eleanor Stafford of Reno and a lumber truck operated by Merrill Gardner of Truckee collided in a sideswipe headon seven miles south of Highway 40 on State Route 89 Tuesday afternoon at 3:30.

State Patrolman Roy Stallard issued a citation to the truck driver for speeding.

MONTH'S REST ORDERED

Attorney William Cassettari, who also serves as Grass Valley city attorney and deputy district attorney, has been ordered by his physician to take a complete rest for a month, due to overwork and to forestall exhaustion. The attorney took the doctor's advice and has commenced a straight month of rest-in-bed.

SUNBEAMS

By WALTER M. BARRETT

Need for an additional deputy sheriff in the eastern section of Nevada County should not be ignored. In requesting the second man to police this large, rather heavily populated region the Truckee Chamber of Commerce has certainly earned the support of all local citizens. The chamber will have a delegation at the meeting of the board of supervisors Monday at which time definite action will be taken. The sheriff has pointed out the necessity for the second man and the local supervisor is strong in favor of the plan. It can be sincerely hoped that the other members of the board, after a fair review of the petition, will take favorable action. The growth of our community and ts continued welfare depends upon the decision Monday.

* * *

It can certainly be hoped that the Truckee Sanitary Board will look with favor upon the petition which is being prepared by business people and home owners in the fast-growing area west of Truckee, asking annexation to the district with sewer service made available. That particular part of our community is developing fact, with new homes and businesses springing up at an increasing rate, and the sanitary problem, while still good, sooner or later will pose a problem. The property owners in the affected area are making a reasonable request. and if given favor by the board annexation will result not only in providing needed facilities, but will increase the capabilities of the district through added revenues.

LOCAL SCHOOL COOKS ATTEND DIET MEET

Mrs. Muriel Frey and Mrs. Miriam Zwarg, cooks at the Truckee Elementary and Tahoe - Truckee High School, were among the 60 school lunch personnel who met last week at the Chico State College campus at Westwood for a summer course in menu planning.

The school lunch workshop, which was jointly sponsored by Chico State College Lassen County schools office, and the California State Department of Education, was under the direction of Mrs. Georgia Colver, school lunch nutritionist, State Department of Education.

Valuable Ring Reported Lost On Mt. Rose Road

RENO—Report of a valuable ring, lost on the Mt. Rose Highway, was filed with the Washoe County sheriff's office.

Stella Braum of Crystal Bay told deputies the ring was worth $100. She described it as a dark brown snake ring with yellow metal eyes.

She couldn't pinpoint the location of the loss any more than to say it was lost on the Mt. Rose artery.

LOCAL ROTARIANS AT RENO BARBECUE

Instead of their regular Monday meeting this week, members of the Truckee Rotary Club went to Reno where they enjoyed the annual barbecue held at Idlewild Park and were guests of the Reno Rotarians.

A roundtable meeting was held at Donner Lake Lodge where George Bettencourt, Lee Nesbit, C. F. Tollefson and Secretary Ed Grant attended. One visitor, Art Westland of Berkeley, also attended.

Visits Mrs. Titus—

Mrs. Caroline Pickit of Carmel Highlands is the houseguest of her sister, Mrs. Frank Titus of Truckee for an indefinite stay.

In City—

Sherilyn Curran left Wednesday to visit Dr. and Mrs. Sidney Kase at San Francisco.

School Will Seek State Assistance If Infux Demands

Changes In Personnel For For This Year Decided By Board

Efforts to assure state financial assistance for the schools in event the population is increased materially as a result of preparations for the 1960 Winter Olympics will be made by the Tahoe-Truckee Unified School District.

At a recent meeting the governing board authorized Superintendent E. V. O'Rourke to consult with state officials and County Superintendent Albert Bequette to secure assurance that the additional expense to the district will be borne in part at least by the state.

It is anticipated that the increased enrollment during the preparation for the games will result in increased expense in providing classrooms, teachers and supplies.

No Complaint

Not a single person showed up at the meeting called for a public hearing on the proposed budget and tax rate for the ensuing fiscal year. Although the rate will be the same as last yar, additional costs will be offset by the increase in assessments, it was pointed out.

Agreements were signed with C. W. Kydd Fuel and Heating Oils to provide fuel for the high school and with the Tidewater Associated Oil Company to supply the elementary schools of the district during 1955-56.

The board agreed to employ Henrikson Brothers of Tahoe to raise and level the old building at the Tahoe Lake School, put in a cement footing, foundation and porch. A maintenance crew will install asphalt tile on the floor, Celotex on the ceiling, paint the interior and rewire for electric lights.

Receive Resignation

The resignation of Mrs. Patricia Meddaugh Burdick as kindergarten teacher at Truckee was accepted and Mrs. Agnes Jean Manetta was employed to replace her.

The board approved employment of Jack Miller as custodian bus driver and approved the transfer of Melvin Throop from the high school to full time custodian for building and grounds at the Kings Beach school. In the same motion, the board agreed to employ Carl Christensen as bus driver for 1955-56.

SCOUTS WILL AID IN SURVEY OF AREA

Mrs. Fosten Wilson announced on Wednesday that eight boys and girls, members of the Scout organizations will cooperate in the survey which will be started, tentatively on Friday, to determine what facilities for housing and eating would be available to people from other vicinities who might be forced to flee their homes in case of a national disaster.

The local survey will have an area from the Nevada-California state line to the west end of Donner Lake.

School Transportation For Squaw Valley Asked

The governing board of the Tahoe-Truckee Unified School District this week is advertising for bids for a contract to furnish transportation for school children from Squaw Valley Lodge to State Route 89 at its intersection with the Squaw Valley road.

Bids will be received by Superintendent E. V. O'Rourke up until 5 p.m. on Friday, September 2. Prospective bidders may contact the sunperintendent's office for required information.

Former Residents Here—

Mrs. D. Saibini of Reno and her houseguests, Mr. and Mrs. D. Guidi were visiting local friends on Friday. The Guidis returned to their home in Roseville.

From Folsom—

Miss Mary Fleckenstein who spent the winter at Folsom is staying at the local home for a few weeks.

Honest Man Finds Money Lost Last Year At Airport

Estaban Bertiz, a shepherd for M. F. Mills, has proven himself an honest man.

Bertiz, while tending his herd of sheep half a mile west of the Truckee airport, found a badly decomposed wallet and $322 in paper money and personal papers which had been lost by Father P. J. O'Niell, pastor of the Catholic churches in this area.

The herder looked up his boss, Mills, and turned the find over to him and Mills called Constable N. F. Dolley who returned the cash and papers to the very fortunate priest.

Father O'Niell lost the wallet and contents while on a hunting trip last fall. The cash represented saving of months which had been intended for a vacation trip—a trip cut short by the loss.

Much of the money was chewed away by rodents, but for the most part the serial numbers were intact and enough of the bills in condition that they were exchangable at the bank.

A less honest man than Bertiz may have been richer in gold had he found the lost currency but he could not enjoy the same feeling of satisfaction which rewarded the Basque.

Car Crashes Train Despite Warnings

It becomes quite apparent that the recently installed clangbells and the flashing red lights at the Southern Pacific Company's bridge street crossing aren't going to prevent accidents but will continue to serve as warnings.

Monday morning at 5:15, a car driven by Chester E. Hammick, Stockon, and a locomotive operated by Engineer Samuel A. Snyder of Sacramento crashed at the crossing.

Fortunately no one was injured.

State Patrolman T. F. Sheehan investigated but no citation was issued.

WOMAN DRAWS JAIL TERM FOR DRINKING

Jean Crosby, about 35, was sentenced to 45 days in the Placer County jail following her arrest by Patrolmen William Gautsche and Martin Sturcke last week on charges of violating the county's sobriety ordinance. She was apprehended on Highway 89 between here and Tahoe City and gave the officers considerable trouble. She was taken to the local jail and then before Judge Harry Charrison at Tahoe City.

TWO BOYS BOOKED IN TAHOE ROBBERY

Two boys, aged 16 and 17, were booked in the county jail by Deputy Eugene Dahlberg on suspicion of auto theft and burglary.

The pair were taken into custody at Lake Tahoe. Dahlberg reported they were in a car which had been reported stolen from Davis.

The pair were also suspected of a burglary of Gil's Restaurant at Kings Beach, the officer's report indicated, while one of them was suspected of peddling several fictitious checks around Lake Tahoe.

Constables Harry Johanson and Richard Lavery assisted in the apprehension of the youths.

Injured Nurse Returns Here For Treatment

Miss Farida Bausch, nurse at the Tahoe Forest Hospital, seriously injured in an automobile accident near Crystal Bay two weeks ago, has been transferred from the Washoe Medical Center at Reno to the local hospital for treatment.

Miss Bausch is recovering as well as can be expected, Dr. L. D. Nelson declared. The driver of the car which plunged 300 feet off the highway, William Briner, has been released from the hostital and is nearly recovered.

The injured nurse suffered another unfortunate occurrence last week when two suitcases of clothing were burned at a Donner Lake motel through accident.

Home Destroyed, Forest Burned, In Two Local Blazes

Family Flees Flames Fast As Building Burns Briskly

One Truckee home was completly destroyed and a second badly damaged in a fire at 1:30 a. m. today, and at the same time the U. S. Forest Service reported a fire which swept over five acres half a mile east of Hirschdale.

The burned houses were located between the Truckee elementary school and the Donner Hotel on the alley in the rear of Church street and were known as the Sapunour houses. They were being purchased by Lloyd Van Sickle of Truckee.

The blaze apparently started in the house occupied by Mr. and Mrs. William P. Douglass who were forced to flee in nightclothing by way of a window and were unable to save any personal belongings as the flames had gained complete control before they were discovered.

The second house was badly damaged when it ignited from the heat next door. This place was occupied by Mr. and Mrs. G. W. Laster.

The Truckee Volunteer Fire Department responded to the alarm and kept the flames from spreading to other residences and the Donner Hotel which is less than 100 feet distant.

The house where the fire originated is the same to which the department was called a week ago when an overheated oil stove was blamed for an incipient fire in one room.

Careless Smoker

The forest service blamed a careless smoker for the fire near Hirschdale yesterday at 5 p. m. It was checked by the Truckee and Tahoe suppression crews, aided by volunteers from the Truckee fire department and Southern Pacific section crews. The fire was between Highway 40 and the railroad.

A false alarm took the forest service suppression crew to Donner Lake Wednesday morning.

Deposits No Longer Required For Piers At Tahoe, State Says

Deposits will no longer be required of persons applying for pier permits at Lake Tahoe, State Lands Commission revealed this week. New regulations will not be effective for several months.

The decision, staff members said is in line with the legislature's 1955 action exempting private pier owners from paying rent for the use of state land under the water.

Commercial piers will be assessed by the state, but it is up to the attorney general's office to decide if resort-recreation piers will be exempt.

Permits now will probably be limited to 10-year periods, Colonel Rufus Putnam, commission executive officer, said.

LIONS, FAMILIES TO ATTEND RENO MEET

Twenty-three members of the Truckee Lions Club and 20 guests met at Ta-Neva-Ho at Lake Tahoe last night for their regular meeting.

Sunday, August 21, the Truckee Lions will meet the Reno Lions in a softball game at Idlewild Park in Reno at 1 p.m. The game will be followed by a barbecue at Moana Springs. All Lions and their families are urged to attend.

On Monday, August 22, the local club will attend a joint meeting with the Truckee Rotary Club at Donner Lake Lodge at 7 p. m. No meeting will be held next Wednesday.

Donner Sunshine Girls Hear Conclave Report

Donner Council No. 13, Pytthian Sunshine Girls met Wednesday night in Odd Fellows hall. Pearl Heller, royal advisor, presiden in the absence of Nancy Kaspian, the royal princess.

Janice Gray, representative to the grand council, read a very interesting report of the proceeding of the convention held at Pomona July 16 and 17.

Th next meeting will be held September 7th.

Eightsome Meets—

The August 18 birthdate of Mrs. Robert Bick was celebrated at the Wednesday meeting of the Eightsome Bridge Club which met at the home of Mr. and Mrs. Harold Langille. The honoree was presented with a decorated cake by Mrs. William Englehart, Jr.

Flys from East—

Charles F. Johnson arrived last night by airplane from Ohio to visit his mother, Mrs. Edith Johnson and his brother in law and sister, Mr. and Mrs. Leslie Grow.

AFFAIRS OF STATE
by Henry C. MacArthur

SACRAMENTO (CNS) — Once again, the Senate Special Committee on Governmental Administration, headed by Senator George Miller, Jr., of Contra Costa County, will take up the problem of secret public records.

Senator Miller and Earl G. Waters, executive secretary of the committee, have announced that the group will meet at 10 a.m., Thursday, September 22 at the state capitol, for the purpose of re-establishing the Press Advisory Committee, which functioned in 1953 and 1954.

The purpose of the meeting also wil be to formulate a program of legislation to be presented to the 1957 legislative session. The problems have been reasonably well established as the result of a wide survey of departments made by the committee during and prior to the 1955 session of the legislature.

While no legislation was effected during the 1955 session just closed, nevertheless the fact that the committee watched the legislation presented to make further closures of public records to the public, was more than sufficient justification for existence of the committee.

Closure of public records to the public has long been a sore spot in state, as well as some city and county governments, not to mention districts where citizens have been denied access to the operating records.

At the 1955 legislative session, there was a determined effort made to prevent the public from securing lists of contractors who file applications to take examinations. The reason was, that too many people were copying the lists, and thus disrupting the work of the department.

The department of motor vehicles sought legislation to create a monopoly in that department, by permitting only those persons who now are obtaining public information from that department to continue their work, along with people who might be "approved by the director." While this bill passed the assembly, it was defeated in the state senate when senators interpreted it as being a move to close records to the public.

The state department of public works continues to refuse to permit the public lists of contractors who apply for specifications on road jobs. This became an issue with Gov. Goodwin J. Knight who had previously announced that he intended to "conduct the state's business in an open show-case." The governor's words have little meaning in this particular instance, as he refused to instruct his director of public works, Frank Durkee, to open up the records.

Typical of most politicans who talk out of both sides of their mouth, the governor directly contradicted his original statement. Durkee refused the information on the theory that the contractors for highway jobs don't want the information released. It is ironic enough that the same information is available on state building jobs through the division of architecture, which also is in the department of public works under Durkee's supervision. All of which might give rise to the belief that the contractors, instead of the people, are running the state department of public works, division of highways.

In any event, the Miller committee can perform a valuable service to the public by merely functioning. The politicians and civil service people are less likely to withhold information when they know there is a strong committee back of the public.

Plane Crash At Tahoe Kills One, Injures One

William Holt, a 22-year-old Pan-American World Airways employe in San Francisco was killed Sunday when his light plane crashed near Tahoe Village located on the south side of Lake Tahoe. James C. Headrick, his passenger, was critically injured in the accident.

Witnesses at the Nevada town told police the plane touched down on the abandoned airstrip, then zoomed skyward above the rooftops of the gambling casino and other establishments.

A half mile east of the resort, the plane's engine seemed to fail.

The plane crashed near Highway 50 on the Kingsbury grade near a camping ground occupied by about thirty persons—its engine landing one foot from a tent occupied by a sleeping camper.

Disappointment Seen For Liquor Operators Under State Ruling

SACRAMENTO (CNS)—Would-be operators of liquor establishments who hope to pick up surplus licenses after September 1, are doomed to disappointment, it was announced here today by Malcolm Harris.

Under terms of a state board of equalization rule, enacted befor the board surrendered liquor administration to the new department, re-activated the rule, and the date of September 1 was fixed by the department for beginning of revocation proceedings against approximately 400 licenses in California, which are not in use at the present time.

"None of the licenses we propose to revoke," Harris said, "will be re-issued."

Reason is that the counties in which the licenses are located have more than their share of licenses in accordance with population at the present time, and the action of the department merely will serve to bring the number of liquor licenses closer to the amount that should be issued in line with the population of the counties.

The department, it was indicated, has had some inquiry from persons who hope to secure the revoked licenses.

In addition, on January 1, 1956, if additional licenses can be issued in line with population growth, the on sale general license will cost $6000, and the off-sale license, $3000. This provision was enacted by the 1955 legislature.

Sanitarian For County Named At Board Meet

NEVADA CITY—M. F. Winans, staff sanitarian for the City of Richmond, has been appointed Nevada County sanitarian to take the place of Charles Shelter who resigned July 1 to accept a simiilar position in the east.

County supervisors made the appointment after Dr. George Foster, county health officer, recommended Winans from a field of nine applicants.

Previous to his service with Richmond, Winans was sanitary officer at several naval installations.

NORTH TAHOE

By JUDGE HARRY CHARRISON

Pretty Wedding

A delightful wedding took place at the home of the Charrisons last Saturday afternoon, when Eugene Olaf Ericksn took Barbara Jaen Treece as his bride. The whole gathering of fifteen was the happiest I have seen for a long time. Mrs. J. O. Barkley was matron of honor and Harry E. Sondan acted as best man. The bride wore white satin and was very beautiful. In fact all were elegantly dressed. Both the bride and groom are from Stockton where they will make their home after spending a short honeymoon at Kings Beach. The groom's father and mother were from South Dakota and the bride's parents are Californians.

Birthday

Well I never: Little Randy Williams has had another birthday; he is making a habit of it, it seems, This is his second and what a day it was, toys and gifts galore. Yes, you guessed it Randy is the son and heir of Wyman and Beverly Williams of Pasadena and Lake Tahoe. He's a cute little customer and beginning to talk ,too, at least everytime he sees me he say Hi Dudge.

Fruits and Vegetables

Well the feud between Joe King and Steve Riolo still goes on. It is so interesting Steve has ordered the Sierra Sun delivered, and if I am any judge, it looks as though it is going to end up in a 50-50 proposition. If Joe has the fruit, then Steve has the vegetables. Here is a list which Joe can't possibly beat. Steve took me on an inspection trip of his estate at Kings Beach. He grows in large numbers lettuce, zucchini (that's what he calls it), radishes, roumaine, maraschino cherries and a dandy crop of dandelions.

Rising Again

Well, it's nearly a couple of weeks since the disastrous fire at the Stop 'n Shop, but to look at the building no one would hardly know the immensity of it. It has been hustle and bustle for the Mizners and the progress they have made just goes to show where there is a will there is a way. They have certainly shown the people how to smile in the face of adversity. With courage and fortitude of this kind how can they lose. Before we know it, the Stop 'n Shop will be in business again. We all say better luck from now on, Bill and Ruth.

Visiting

Lillian King has some visitors staying for a while and they are grand people, her sister, Mrs. Pearl Trickey of Forest Hill, and Mr. and Mrs. Pierre Galant and family of the city of San Pablo. They tell me they are having a grand time and will hate to leave.

Busy Time

Busy time at the Anna Blaue home in Tahoe Vista the past week or so. The following visitors were houseguests at this well known home: Cecelia Junge who had stayed a month left for Denver, Colo., last Friday; Anna Hess of Hollywood was a visitor for a few days, and Mr. and Mrs. Degroot and three sons, Barry, Johnny and Kim from Sun Valley stopped on their way back from a trip to Michikan, Kansas and Missouri. Mrs. Degroot is a niece of Mrs. Blaue.

Wee Bairn

Last week I was told of the arrival of a bonnie wee son to the Frank Madisons of Kings Beach. The young man arrived at the Tahoe-Carson Hospital on August 4. (Behind aren't I) and he was named Albert Frank.

Patient

Who should I see in the hospital today, but my old friend, Carroll Maynard, the popular highway patrolman. It seems he got too close to another vehicle and was shaken up pretty much. Sincerely hope his stay will be very short.

Thought It Over Too Late

People Are Funny: Yesterday, Saturday, I married a couple, but today reversed itself. A young couple came to see me, a swell pair, the boy 22 the girl 21. Said they got married in Reno yesterday, and asked me if they could get an annulment, as they had made a mistake. The funny thing about it was both were willing to part. I gave them an idea of what they would have to do, to gain a divorce, but he wanted to do it today as he had to get back to the coast guard tomorrow. He said he loved his wife, and didn't think about other girls until after he was married. Now after coming to the beach and seeing all the girls why he wasn't so sure. The girl said if he doesn't want her that's O.K. she'll let him go. After telling them the obstacles they would have to face, they thought it would be easier to stay married, and thus the couple promised to write me in a month of how they are making out. Anyway they kissed and went away hugging each other. Sure hope the poor kids make it.

Thanks

Joe and Lillian King wish to express their appreciation to all those who did such a splendid job at the big fire of last week. They say they are real proud of the efficient work of the fire department and others that took part.

Lady?

The Highway Patrol—yes, I say that because I think nearly all of them took an active part in the episode. A "lady" who was drunk was reported to be loose on Highway 89 last Thursday, throwing stones at passing cars. A few members of the patrol arrived and the said "lady" proceeded to give them the works. Her vocabulary was all but ladylike, and just wanted to get her teeth into the hands of these burly gentlemen, but that was just a start. Because after arriving at the Truckee jail she proceeded to tear the place to pieces, turning the water on which left a couple of inches over the floor. Brought to court she said her ex-husband was brain specialist, he should be here to work some judges and patrolmen. Anyway she earned herself 45 days in the county jail. Yes, she said upon questioning, she had been in jail about 50 times on drunk charges. Easy living, huh?

Vacationing

Herman Kliensmith and Ernest Ward are guests of the M. H. Dodds at Cedar Flats. Both are from the Los Angeles area, and have been coming up for a good many years.

Robbers

Well: The most popular sport these days, seems to be burglarizing homes and other places, especially at Tahoe, and the latest is as you see in another part of the paper. The postoffice at Tahoe City, and I understand Homewood postoffice was robbed also. Others are Fred Cunninghams, Stevenson's home and Smith's Coffee Shop, but nothing taken. Harry Johanson says he has good leads, all at Homewood.

Bless Her Heart

Haven't talked to Marie C. Hart for quite awhile, until today. Was awful glad to find her just fine and busy as a bee, as always, and catching fish too. Just wanted to showoff to her friends, she said, and low and behold she made it a big one, too.

Better

Bert Cochran was in town a few days ago, and according to Dick and Ruth Lavery he's as good as ever, in fact better than he did before his terrific accident.

Bruce A. Ayers and Helen F. Frazier, both of Kings Beach, obtained a wedding license at Reno last weekend.

ARE YOU A SUNSCRIBER?

Robichaud Put Cent In Meter "Just to Be Sure"

Francis Robichaud, deputy district attorney of Sacramento and formerly of Truckee, had time left on his meter the other day when he went out to make sure he had some.

However, Robichaud put another penny in the meter, then got in and drove it a foot forward.

To an inquisitive person, Robichaud explained:

"I still have a few minutes business left in the office, before I have to leave in a hurry, so I'll just make certain I don't get a ticket."

TAHOE NURSERY NOTES

Nursery School meetings have been held throughout the summer to eliminate past and present weak points in our setup. Your attendance and active part in discussions help.

Our program chairman has books on many child problems for you to read. By bringing up your problems during our discussion period, we can all help in solving it together. You will learn others have the same difficulties.

Our director, Elaine Wright, came back from Davis summer classes with an A. Are we proud of her. We are going to school five days a week this term, I hear. Being a self-supporting cooperative school, any help given will be appreciated. Let's see more 'stuff' in those plastic containers around town. Call Tahoe City 177-J or 225-W for information regarding entry details.

—Euni Henrikson

TAHOE WEATHER

TAHOE CITY—Slightly cooler, but still ideal summer weather prevails at Lake Tahoe this week. The temperature has dropped to a low of 41 on Sunday morning but rose to 78 that same day. The lake level Monday stood at 6226.28 feet with five gates open.

PRESENT ALLOTING OF ROAD FUNDS IS HOLDING BACK 40

by HENRY C. MacARTHUR
(Capitol News Service)

SACRAMENTO (CNS) — Once again the time for consideration of the annual state highway budget for major construction has arrived, and the California Highway Commission today is considering the requests from various sections of the state for new and improved roads.

The commission finds itself in the position of dealing with requests which apparently will total much more than theapproximately $250,000,000 it will spend on state highways next year, all of which brings up the question of whether or not the laws governing allocation of highway funds are out-dated and need some thorough revision to permit the state to get the most out of its gasoline tax and other motor vehicle tax money.

Funds on Population

Under the presnet system of allocation, funds go to counties on the basis of population and usage. Up to a point, the commission is obligated to spend these funds in the counties to which they are allocated.

This system, however, is far from equitable insofar as actual highway usage is concerned, and if funds were allocated on this basis, very soon the most used highways in the state would be brought up to standard, and then money could be allocated to the roads that are used in less volume than the major highways.

Such a system, which could be easily worked out after legislative approval, would provide the best service to the greatest number of people, which after all is the primary object of government.

U. S. 40 Is Example

An example could be taken with U. S. 40, for instance, from San Francisco to the Nevada County line. At the present time, this highway which is one of the most heavily traveled in northern California, is being improved on a piecemeal basis. From Sacramento to San Francisco, it is a four-lane highway, partially freeway. But from Sacramento to the Nevada County line, thereare only short sections of four-lane road, and it is in this area that heavy trucking operations continually slow up, and hinder normal travel speeds. Thus, the need for a four-lane highway across the Sierra Nevada is not a matter for discussion, as all agree it is a crying need.

On Tax Basis

Therefore, if the taxes paid by the traffic on U. S. 40 were allocated to that highway, the necessary improvements probably could be taken care of in a reasonable length of time. Computing the tax would not be difficult, as traffic counts are made frequently, and a suitable estimate could be arrived at through this medium.

Similar counts on other heavily traveled highways throughout the state might show the need was even greater and that more funds were available for those highways. The more usage a highway has, the more funds could be allocated to its development.

No Vote Getter

Individuals who suggest this system, however, point out that it is heresy insofar as present practices are concerned, due to the constant pushing from areas where roads have a lesser amount of traffic, and also, where the votes are in the state legislature. Obviously, no senator or assemblyman can be expected to vote for a system which might work to the detriment of his own district, even thought it would in the long run, benefit more people, and provide better transportation on a statewide basis.

However, it is, at least, a good question, and one which may receive some notice in the future.

SQUAW VALLEY LAND UNDER DISCUSSION

AUBURN—Mr. and Mrs. Wayne Poulsen, who own much of the land in Squaw Valley, appeared before the Placer Planning Commission Friday for clarification of the new emergency planning resolution recently passed by the supervisors.

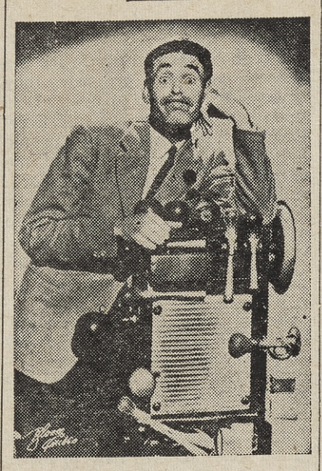
Poulsen explained his company had hired its own planners, and had already zoned commercial and residential areas. Included in this is a proposed 120-unit hotel and a shopping center.

He was told it would be necessary for county building inspectors to look over any building plans.

Poulsen agreed to cooperate with the county government and asked that notice of meetings where Squaw Valley is concerned be sent him.

Mr. and Mrs. W. R. Tiffany of Stockton are enjoying a vacation at Homewood through August and September.

Hoosier Hot Shots To Be Fair Feature



The famous Hoosier Hot Shots, pioneers in the comedy-band style of entertaining, are headed for the Nevada County District Fair next week, Sunday, August 28. It will be the fun headquarters for this area, since the Hoosier Hot Shots are famous for their crazy, rib tickling musical didos which have made them outstanding stars in radio, theaters, night clubs and movies.

Hoosier Hot Shots naturally hail from Indiana and while they are known to millions by that name only, they actually have real names too. Theyare "Hezzie Trietsch, the "corn cut up" of the group who plays a slide whistle and the washboard; Ken Trietsch, who plays the guitar, Gabe Ward, clarinet and Gil Taylor, impressario of the bass fiddle and hansome crooner.

For a sure cure for the blues, it's see the Hoosier Hot Shots at the Nevada County Fair.

NEW MANAGER OF CHAMBER NAMED

The appointment of Don Dickey, former manager of the Lodi District Chamber of Commerce, as manager of the Sacramento Valley District of the California State Chamber of Commerce was announced today by State Chamber Manager James Mussatti.

The appointment is effective August 16. Dickey succeeds William Clayton, who on September 15 assumes the post of assistant general manager of the State Chamber of Commerce, in San Francisco.

Dickey, 33, is a native of Stockton, and has served as an enlisted man in the navy during World War II. For the past two years, he has served as manager of the Fairbanks, Alaska Chamber of Commerce.

NEVADA COUNTY GETS SCHOOL AID

SACRAMENTO (CNS)—Roy E. Simpson, state superintendent of public instruction, today certified basic aid apportionments to school districts with State Controller Robert C. Kirkwood.

The total apportionment, subject to revision and correction if necessary, amounts to $279,695,791 of which $424,460 goes to Nevada County.

The 1955 legislature, Simpson pointed out, changed the law to provide for an earlier apportionment. Formerly, funds reached the schools about October 1.

FOREST SERVICE TRANSER MADE

Supervisor L. A. (Gus) Rickel, supervisor of the Tahoe National Forest, announced today the transfer and promotion of Bliss O. Haynes from Nevada City to the Lassen National Forest at Susanville. Haynes has been serving on the Tahoe Forest since March of 1950 as assistant forest engineer and later as chief of timber access road surveys.

The position to which Haynes is being promoted is that of forest engineer, Lassen National Forest. In this capacity, he will be responsible for all technical engineering services connected with the construction and maintenance of forest improvements — buildings, roads, erosion control and timber access roads, etc.

PERSONAL INCOME IN STATE JUMPS

Reaching an unprecedented peak, personal income of California residents rose to a $27.2 billion annual rate for the first half of 1955, it was reported today in figures released by the economics department of Bank of America.

This is 5 per cent more than in the comparable period in 1954 and compares with the record national total of $295 billion for the first half of 1955. California, with 7.7 per cent of the entire United States figure.

Bank of America economists stated that the main source of the first half boom in personal income was in the commodity producing industries, principally manufacturing and construction. These industries paid out 7.5 per cent more in wages and salaries in the first half of 1955 than they did in the comparable period a year previously.

WARNING

Discharging of firearms in or near the Truckee Sanitary dump and at the disposal plant east of Truckee is absolutely prohibited and violators will be prosecuted to the full extent of the law.
By order of the
TRUCKEE SANITARY DISTRICT
R. W. Seibold, President.

FREEWAY ROUTING FROM ROSEVILLE IS GIVEN APPROVAL

SACRAMENTO—The California Highway Commission has adopted a freeway routing for an 11-mile section of U. S. Highway 40 from one mile northeast of Roseville to one mile east of Newcastle, Placer County.

The route adopted is that recommended by State Highway Engineer G. T. McCoy. It runs from a half to three quarters of a mile south of the present highway.

The commission announced in July that it would consider the adoption of the route at its August meeing. Previously, a public meeting was held in Auburn on July 13 at which information was presented on various possible routes. Subsequently the board of supervisors of Placer County adopted a resolution stating that further hearings on the proposed route were not necessary. Similar action was taken by the Rocklin City Council on August 8.

The adopted route leaves the present highway just east of the end of the Roseville Freeway now under construction between Ben Ali and one-half mileeast of Roseville. It follows along Secret Ravine, skirting Rocklin and Loomis to the south. Near the end of the Secret Ravine it turns northerly to bypass Newcastle on the east and connects with the existing highway approximately one mile east of Newcastle.

Plans of the Division of Highways call for construction of a four-lane full freeway on this section of U. S. 40, with provision for ultimate development to six lanes. At each important public road a grade separation would be provided so that the present county road system would not be disrupted.

The present highway would continue to severe local traffic and would be connected with the freeway by appropriate interchanges. Cost of the proposed freeway is estimated at $5,500,000, including rights of way. Start of construction will depend on the availability of future state highway funds.

Adoption of the routing between east of Roseville and east of Newcastle closes the one remaining gap in the freeway routing of U. S. 40 between Sacramento and one mile east of Magra, near Gold Run. This is atotal length of 54 miles.

U. S. 40 has been constructed as a multilane expressway between Auburn and Applegate, and construction is under way on 2.7 miles from Applegate to Heather Glen under a $671,410 contract.

The 1955-56 state highway budget contains an allocation of $900,000 to build structures on 2.7 miles of freeway between one mile east of Newcastle and Elm street in Auburn.

'FALL-OUT' WEATHER DATA TO BE GIVEN SHERIFF'S OFFICE

SACRAMENTO (CNS) — Stanley Pierson, state civil defense director, today announced distribution of "fall-out" weather data, geared specificially to plotting radioactive patterns from possible nuclear bombings.

The weather date, Pierson said, will be distributed to sheriff's offices in virtually every county of the state every 12 hours, beginning August 22.

Arrangements to provide and transmit the information were recently concluded with the weather bureau and the department of justice.

The announcement means that every local civil defense organization in California will be provided with the means of obtaining current weather information on which to predict fall-out patterns against the possibility of sneak attack with nuclear weapons.

Fall-out, it was explained, is actually fine radioactive dust kicked up by a thermonuclear explosion, and carried by upper winds over vast areas in which exposure to the dust as it settles back to earth can kill and injure human, animal and plant life.

Extent and director from a bomb burst of such potentially contaminated areas depends almost entirely on weather conditions at the time of the blast.

FOR SALE: Two slightly used good 39-inch coil spring mattress twin-size beds, each $27.50. 100 lb. enamel in and out ice box, bargain, $7.50, smaller ones $2.50 G.E. SODA SPRINGS TRIP RESULTS IN CHARGE

SACRAMENTO—Earl P. Jones, 27, Lester Reynolds, 18, and Donna Compton, 18, have been booked in the county jail on charges of contributing to the delinquency of a 15-year-old girl.

Deputy District Attorney Kenneah M. Wells said they are accused of traveling with the girl to a lodge in Soda Springs, Placer County, and spending several days there.

Cardamon pods contain numerous small seeds which are irregularly round, usually about 3|32 of an inch long.

NEWS NOTES FROM TAHOE

by Ethel Joslin Vernon

Lake Is Busy

With the beautiful weather continuing without let-up, and visitors and tourists pouring in daily by the hundreds, the old-timers and all-year residents here scarcely know whether they're coming or going. Every lodging place, cottage court and camp on the lake are constantly filled to overflowing, and most of the hotels and courts are booked for weeks ahead. The highways are roaring with traffic day and night, and many motorists are forced to camp along the roads because all the signs read "No Vacancy." Even though the publicity on "litterbug" menace is beginning to have some effect, there is still a great deal of littering going on along the lakeshores and down the river road. With the extremely dry weather, this condtiion grows more dangerous day by day, and the warnings cannot be too many as concerns fire hazards. We viewed the destruction left by fire in the heart of Kings Beach, where the origin of the blaze had not yet been made certain, and t was very depressing to see only bare and blackened brick walls where once a thriving shopping center flourished.

Water Ski Carnival

Commodore Randolf Walker (Randy Jr.) made a special call this week to ask that the third annual Tahoe Yacht Club's Water Ski Carnival be announced again. It will be held on Sunday, August 21, starting around 9:30 a.m. Preceeding it, he said, will be the kids' outboard motor races, which will start at 8:45 a.m. The boats of the lower horsepower class will be driven by youngsters of 13 years or under. There will be two other classes of boats in these races, the first with drivers between 14 and 18 years of age, and the second between 19 and 20 years. There will be 10 classes in the water ski races, according to ages of skiers, and it is planned to present first and second winners in each class with trophies. The events will be staged from the main Chambers Lodge pier, and chairman of the program committee is Allen Bray. Others on the committee include Randolf Walker, Roger Murphy, Robert Dobbins, Sherrell Blessing and Michael Brown. Printed programs of the scheduled events will be obtainable at the chamber of commerce offices in Tahoe City a few days ahead of the races.

Good Outgoing

A camping party on a fishing excursion to Watson Lake over Saturday night and and Sunday morning included Leonard Bury, Tahoe City baker, his young son Donnie, another Tahoe City boy, Donald Henry, and two young men from Lake Forest, Bob Williams and Ronald Brown. The five left Tahoe City early Saturday afternoon with bedding, fishing tackle and food supplies, expecting to make the six-mile hike before sundown, and perhaps have time for a bit of fishing in the lake during thetrout's evening feeding hour. At night they spread their sleeping blankets on evergreen boughs near the warmth of a smouldering campfire, and on their return home reported spending a very comfortable night. Before starting on the trip Donnie Bury had a rather painful accident when he run a rusty nail into the ball of his foot, and he had to travel with the foot heavily bandaged. However, he proved himself a husky mountaineer, as he walked the two miles up and over Watson mountain without a complaint. Donald Henry suffered an unfortunate accident in camp when one of the older boys threw powder from a small cannon he was carrying, on the campfire. The extreme heat from the powder flare seared Donald's hand badly, and it was feared he may have to wear bandages several days. The party did not have any luck in fishing, but all greatly enjoyed the restful hours in the unspoiled back country.

To Have Operation

The kind of news we dislike most to write, has to do with the A. M. Henry family this week. Joe Henry, who has suffered ill health for the past several weeks, was recently notified by his physician that it would be necessary for him to undergo an operation. He left here on Sunday for the U. C. Medical Center in San Francisco, accompanied by his wife, Marie. He expected to undergo surgery some time on Monday night. His daughter, Pat Henry Fox, with her husband and young daughter, left for the bay region on Saturday. Pat expected to be with her mother at the hospital until the successful conclusion of surgery. Joe's many friends are wishing him the best of luck through this trying time, and the speediest recovery possible.

Entertain Friends

Mr. and Mrs. Al Henry, Jr., this week are entertaining relatives from the lower and warmer altitudes. They are Mrs. Henry's sister and husband, Mr. and Mrs. Jack Stranathan from Auburn, with their young son and daughter.

Many Parties

At the canyon home of Mr. and Mrs. Walter Gabriel during the midsummer season many parties of house guests have been entertained through the passing weeks. The latest guests who made a stopover there on their tour through the lake region were Colonel and Mrs. A. P. Crist, presently of Oakland. Through recent years the Crists spent 12 summers in their own lake-view home on the high slope of Dollar Hill. Theirs was one of the first summer homes built in that section, and was only recently sold when the colonel retired to make his headquarters at his bay region place.

On Vacation

For the past three weeks Mr. and Mrs. E. R. Critchett and family, of far-away Maracaibo, Venzuela, have been vacationing in the Lake Forest locality. Mr. Critchett is a brother of Mrs. Ivan Wilson of Lake Forest. The Critchetts have with them their son and daughter, Eugene Ray and Katherine. On August 11 Mr. and Mrs. Critchett spent the day in Reno with the Wilsons, and helped Laura and Ivan celebrate their 20th wedding anniversary. Tahoe City friends extend congratulations, and with them many happy returns to the date.

Mr. and Mrs. Floyd Carnell were hosts at a dinner party in Reno on August 14, celebrating the birthdate of their son, Howard Carnell.

TRUCKEE PUBLIC UTILITY DISTRICT

A Tax-Saving, Public Service Enterprise

LETTERS to the EDITOR

Dear Sir:

I wish to express regret that I was taken sick while campaigning for the Salvation Army in your community, and I want to say that I do not believe there is another hospital in our country where I would have received such excellent care as I did in your Tahoe Forest Hospital

The personnel, the nurses and nurses' assistants were so efficient, so willing and so kindly. I cannot express in words my gratitude to them, and to my physician. Altogether they expedited my recovery.

J. D. HERBERT, area representative Service Extension Division, Salvation Army, San Francisco.

FOUR TYPES OF VIOLATIONS ARE LEADING MISHAPS

SACRAMENTO—Four types of traffic violations cause 62 per cent of all traffic accidents says the California Highway Patrol.

"Last year there were 165,541 traffic violations noted in all traffic accidents in California," declared Patrol Commissioner B. R. Caldwell. "Of these, 105,437 were violations of the rules covering speed, right-of-way, improper turns and drunk driving.

During the first seven months of this year, 1777 persons lost their lives in California traffic accidents," Caldwell continued. "This is an increase of 8.5 per cent compared to the same period of 1954 and is indicative of the continued disregard of the consequences of violating traffic rules.

Traffic laws are safety rules designed to protect life and property," he said. "Far too many drivers develop a habit of cheating on traffic laws. This cheating will sooner or later lead to an accident and, frequently, injury or death.

In the interest of personal safety it would be well for every driver to check his traffic habits using the vehicle code as a measuring stick with special attention given to the four types of violations mentioned."

GOVERNOR APPOINTS THREE NEW JUDGES

SACRAMENTO (CNS) — Gov. Goodwin J. Knight through his office has given notice of his intention to appoint three new judges after his return from the Conference of Governors in Chicago.

They are Assemblyman Gordon Fleury, Sacramento, to superior court; Maurice C. Sparling, his former superintendent of banks, to superior court in Los Angeles County, and Rafael H. Galceran, Jr., to municipal court in El Monte, Los Angeles County.

Fluery's appointment will be to a new court created by the 1955 legislature. Sparling will succeed Judge Thurmond Clark, who is resigning to accept appointment to the federal district court. Galceran goes to the additional municipal judgeship created by the legislature in the El Monte judiciad district.

According to custom, the names are submitted to the state bar association for approval before the appointments are actually made.

ASSESSORS RESENT BOARD ACTION IN RAISING VALUES

SACRAMENTO (CNS) — The charge that the state board of equalization did not give adequate notice to counties to prepare defenses against the board's proposed order that tax assessment standards of 19 counties be increased was made by the county assessors association of California.

At the same time, Stanislaus County officials made the same protest at a hearing before the board.

The board has proposed to up Stanislaus County's assessment ratio by 40 per cent, from 17.8 to 24.9 per cent of market value.

The county assessor's association issued a statement requesting that the board "provide ample time for public harings wth each county assessor to permit a complete review of county property values as appraised by the state board of equalization."

The association also asserted that "only few" of the assessors in the 58 counties have been supplied with the board's appraisal data.

Frederick W. Reyland, Stanislaus County counsel, told board members that officials of his county did not receive notice of the haring nor state figures until July 19.

K. V. Broadwell, Stanislaus County assessor, took the witness stand and questioned the accuracy of state assessments made of sample parcels of land, which were used in the state's computations.

Dixwell Pierce, executive secretary of the bard, defended the board's figures, declaring that county assessors "have not offered any proof" that the board's appraisals are inaccurate.

Investigation Will Start On Long Beach Project

SACRAMENTO (CNS) — Investigation of the assembly into the Long Beach oil situation is scheduled to begin August 26, in Los Angeles, Assemblyman Gordon Fleury, who heads a special committee to go into the claim of the state for millions of dollars in oil revenue now held by the City of Long Beach.

Fleury said a meeting of his special committee is scheduled for 10 a.m. in the state building, August 26, in Los Angeles.

The situation arose when the state supreme court ruled that the state is entitled to half of the Long Beach oil revenue, which stored up amounts to some $200,000,000, plus the potential revenue of two billion from drilling operations in Long Beach harbor.

A bill by Assemblyman Bruce Allen, San Jose, was barely defeated at the 1955 legislature. Allen's measure would have returned all of the excess oil revenue to California which could not have been used by Long Beach for purposes of the trust in which it received the original grant of tidelands.

This trust provided that revenues were to be used for harbor improvement, and operation of the city's harbor.

Long Beach contested the measure in the legislature, hiring attorneys, lobbyists and public relations experts, who succeeded in killing the Allen bill. The city contends it should be allowed to use the excess revenues for municipal purposes, which citizens of other communities are forced to finance through taxes.

The Fleury committee at the August meeting will lay out a program for the investigation, Fleury said.

NOTICE TO BIDDERS

Notice is hereby given that sealed bids will be received by the Governing Board of the Tahoe-Truckee Unified School District, Placer and Nevada Counties, California, at the office of the Superintendent of Schools, Truckee, California, on or before, and no later than August 22, 1955, at 5:00 p.m., for the contract or contracts to supply gasoline for the school buses and other vehicles and equipment of the Tahoe-Truckee Unified School District in accordance with specifications on file in the office of the Superintendent of Schools.

The Governing Board reserves the right to reject any and all bids, in part or in total, to waive any irregularities, and to be the sole judge of the suitability of the product offered.

Bidders are required to submit complete specifications with prices for any and all products offered.

By order of the Governing Board of the Tahoe-Truckee Unified School District.

FORESTRY-U.S.A.

FORESTS GET A GOOD SPRAYING—
STATE, FEDERAL & PRIVATE LANDOWNERS IN VAST AREAS OF THREATENED TIMBERLAND ARE FIGHTING A FOREST ENEMY FAR DEADLIER THAN FIRE.

PROTECT THE FORESTS AND USE THEM WISELY

BOAT DRIVERS ARE WARNED ON CODE

Reports by bathers frequenting some areas on Donner Lake indicate that the Harbors and Navigation Code of the State of California are going completely unheeded by boat operators and officials declare that continued violations will certainly result in arrests.

The law specifically states that no boat operating more than five miles per hour shall come within 200 feet of any beach frequented by bathers, a swimming or diving float or a life line. It also prohibits any boat as above mentioned to come within 100 feet of a bather.

A penalty of $500 fine or six months in jail or both are prescribed by the state law.

BEAVERS INCREASE IN SIERRA AREAS, OFFICIALS REPORT

Beaver populations in the northern Sierra and Cascades are at a ten-year high as a result of a program of live trapping and transplanting to areas of short supply, the state department of fish and game reported.

In fact, in some areas there are so many beavers that proposals have been made for liberalizing trapping regulations to provide a profitable harvest and keep numbers down in keeping with available food and cover.

If adopted by the fish and game commission, these measures would apply only in certain mountain areas where beaver depredation complaints have been increasing.

The department reported that Sacramento valley beaver population is remaining fairly static.

Counties particularly affected by the beaver increase are Alpine, El Dorado, Placer, Nevada, Sierra, Plumas, Shasta, Lassen, Modoc and Siskiyou.

Right-of-Way Mishaps Occur Every 17 Minutes

SACRAMENTO—The California Highway Patrol reports that a traffic accident caused by a violation of the right-of-way occurs once every 17 minutes somewhere in California.

"Most of the right-of-way violations noted by the patrol involve drivers who fail to yield before turning left at intersection," declared Patrol Commissioner B. R. Caldwell. "Another collision causing violation of the rights of others involves drivers who fail to yield in obedience to stop signs.

Most of these actions are discourteous as well as illegal and, many times, indicate a childish urge to get ahead of the other fellow even at the chance of becoming involved in an accident," Caldwell said. "The patrol's present program of enforcement emphasis on right-of-way violations will continue until accidents caused by this type of violations are drastically reduced.

Every driver and pedestrian can help improve this situation by filling their traffic habits to overflowing with courtesy and obedience to the traffic laws, particularly the laws governing right-of-way."

The total national production of peas in 1954 was 850 million pounds.

CAR ACCIDENT HERE RESULTS IN SUIT

NEVADA CITY—A personal injury suit for $50,000 plus medical expenses has been filed in Nevada County Superior Court against Erving D. Waters and others by Truckee Attorney William Carver for his client Karl Clifford Von Rydman.

The complaint charges that on July 12, 1955, while Von Rydman was driving in a westerly direction near the Truckee Wye at the U. S. 40 intersection of State Highway 89 Waters' automobile ran into the car in which the plaintiff was riding, causing him numerous injuries.

Another personal injury suit for $15,000 plus medical costs to be determined when ascertained has been filed by Gordon Blair against Harry E. Haas, his wife Marguerite and Does one through ten.

Filed by Redding lawyer, Glenn D. Newton, this suit alleges that Blair, while riding in an automobile driven by Burton Blair and owned by Nolan Glahn, was hit by the defendants' auto causing serious injury. The collision occurred May 22, 1955, on U. S. Highway 40 nine miles east of Soda Springs.

GOES SOUTH

Walter Haug of Sugar Bowl at Norden went to Los Angeles last week to return with Mrs. Haug and their daughter who had been vacationing in the south.

Mrs. Heller Honored On Official Visit To Local Rebekah Lodge

Members of Naomi Rebekah Lodge No. 2, honored Pearl Heller, district deputy president at the meeting held on August 10 on the occasion of her official visit. Mrs. Heller gave instruction degree work, escorted by Dorothy Kay, deputy marshal and a staff of eight members.

A gift was presented to the visitor in behalf of the local lodge and she also received a bouquet of red roses from her husband, Charles Heller.

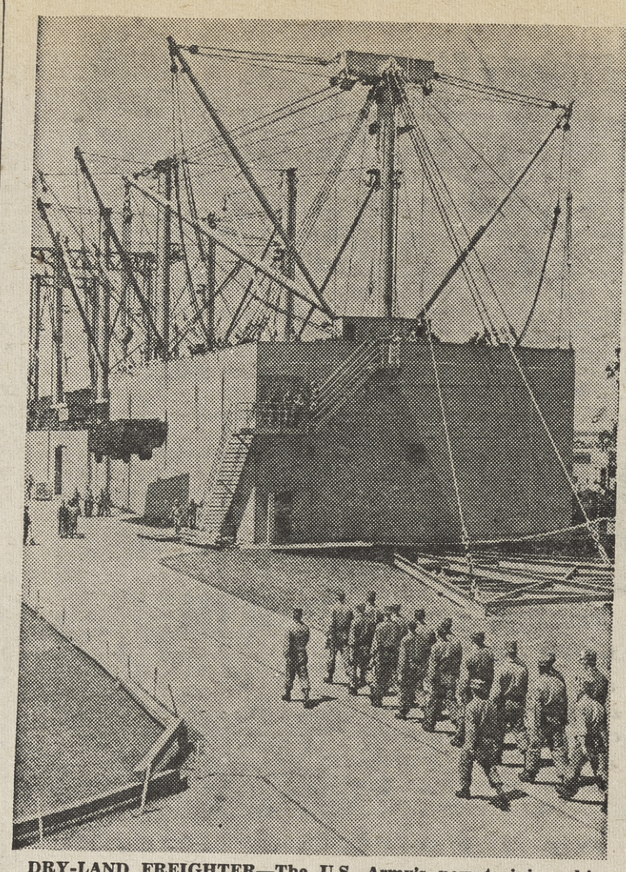
Leonore Vind presided at the meeting which more than 50 attended and a buffet supper was served prior to the evening's program.

During the affair Mr and Mrs. William Carver and Mrs. Thelma Norris were accepted as members of this lodge, transferring from Rising Star No. 8 at Sacramento. Their official welcome will occur at the August 24 meeting.

Mr. and Mrs. Rex Thomas donated jewelry when a Dutch auction was held, the funds realized to pay for gowns for the staff.

Thirteen members went to Dutch Flat on August 12, presenting the lodge members there with a contribution to the fellowship fund, for the cause of buying needed equipment at a home for children.

The visitors put on an appropriate skit which was well received.



DRY-LAND FREIGHTER—The U.S. Army's new training ship for stevedore troops, the "S.S. Neversail," 312-feet steel replica of a modern freighter, sits snugly—and for all time—in her Sciff's Creek "berth" at Fort Eustis, Va. The ship has facilities for 272 trainees.

STAGE SET FOR BIG NEVADA CO. FAIR

The stage is all set for the Nevada County District Fair August 25-28. Nevada County's big display case will feature over 1200 sections, 2743 prizes in agriculture, horticulture, home economics, 4-H work, floriculture. Yes, it's going to be a big four-day run with everything in tip-top shape. General admission is only 10c again, "What a Time for a Dime."

Entertainment featured will be a wrestling card presented by Cal Herman of Marsvulle for an opener, Thursday, August 25, followed by the famous Bandwagon Jamboree, formerly Hoffman Hay Ride on Friday. "A Thousand Thrills," a car crash, comes Saturday with both a matinee at 2 p.m. and an evening show at 8 p.m. Sunday will bring the musical capers, the Hoosier Hot Shots of radio, the horse show — the Sacramento Horseless Carriage Club of Sacramento. Between these numbers there will be band concerts, organ niterludes, a flower show, a carnival for the kids—so everybody can enjoy himself.

So it's make a date for next week at the Nevada County Fair.

Mahnes Sell Two Homes, To Reside At Capital

Mr. and Mrs. Antone Mahne announced this week that they have sold both their houses near the Truckee Elementary School, the smaller place to Mr. and Mrs. Steve Kolas and their former home on Church street to Mr. and Mrs. Eralda (Eddy) Sardi of San Francisco.

The latter are arriving soon to be associated in the cocktail lounge at Smart's new cafeteria and dining room being constructed at the Tahoe-Truckee Wye by Rex Reid, Truckee building contractor.

The Mahnes are disposing of their furniture and other household equipment and plan to make their permanent home at Sacramento, where they have resided during the winters for the past few years.

Kallegs at Kingvale—
The George Kalleg family of San Francisco have been vacationing at Kingvale.

Weeks Better—
Carl Weeks of Auburn, formerly of Truckee is reported to be recovering from pneumonia at his home.

To City—
Mr. and Mrs. W. F. Bailey have left their vacation spot at Boca for San Francisco.

California produced 50 million commercial broiler and fryer chickens in 1954.

CARD OF THANKS

We are most appreciative for the many kindnesses shown us after the fire which destroyed our household furninshings and clothing on August 18.

Mr. and Mrs. Wm. P. Douglass

Veterans' Buliding Is Entered By Vandals

Constable N. F. Dolley was called yesterday to investigate the illegal entry into the Veterans' Memorial Building.

Dolley said that a window on the east side of the structure had been broken and that the vandals entered but apparently did not take anything of value.

The affair could have taken place any time during the past ten days, Dolley said.

FAST BOATS, NERVY DRIVERS TO ENTER MILE HIGH RACES

TAHOE CITY—More and more entries are coming in for the September 10 Mile High Regatta at Lake Tahoe, with Slo-Mo-Shun IV, which holds the world speed record for conventional water craft heading the list in the unlimited class hydroplane events.

The Lake Tahoe Mile High Regatta is officially recognized as the only APBA-sanctioned race for unlimited type boats staged on waters more than a mile above sea level.

Pits for the unlimited class boats will be at the Tahoe Boat Company piers at Tahoe City, while the limited class boats will set up their pits at the Tahoe City Commons.

Henry J. Kaiser will enter a sister hull to Miss Thriftaway, which won two heats but just missed winning the Gold Cup at Seattle recently. The new boat is now en route to Tahoe from the builder. Another Kaiser boat entered will be the Scooter II, with its 3000 horsepower motor.

Also entered will be Philip J. Murphy's Breathless and Al Crawford's Zephyr Fury from Los Angeles. Short Snorter, owned by Stanley Dollar will be among the chief contenders.

The races annually bring out the fastest boats and nerviest drivers in the business and this year's show is expectedto be no exception and thousands of spectators will be attracted to the scene.

500 BOY SCOUTS END CAMP AT PAHATSI

Sunday, August 14 closed this year's season of summer camp in the Tahoe Area Council, at Camp Pahatsi. Over 500 Boy Scouts took advantage of this opportunity to participate in camping and outdoor activities, and to become better acquainted with the other boys in the council.

One of the highlights of the camping session was barbecue held on July 30, attended by members of the sponsoring organizations and their families.

Every boy attending camp has an opportunity to become a member of the tribe of Pahatsi, and attend the rites held on Tribal Island. Each Thursday the Scouts accompanied by adult leaders, take the traditional overnight hike to Lola Montez mountain.

State Equalization Board Functions To Be Scanned

SACRAMENTO (CNS) — The state senate interim commttee on governmental organization will study the organizations and functions of the state board of equalization at a hearing here September 7, it was announced here today by Senator Hugh P. Donnelly (D), Turlock.

The committee will analyze the need for independent review of administration actions of the board. Donnelly says that the board now sits as judge and jury of its own decisions.

Many counties affected by the board order to increased assessed values do not agree wth the decision, but have no recourse for administrative review of the board's order of earlier this week, the senator stated.

The committee will also investigate the various functions of the board. Donnelly said there is a question as to the compatibility of the functions of assessment of certain types of property by the board and board review of county assessments of other property.

Need for re-apportionment of the four board of equalization districts also will be discussed at the hearing. Donnelly invited interested parties to present their views and arguments to the committee.

Girls Are Honored At Meeting Of Scouts Here

Patsy Jansen and Pamela Rose were honored at an investiture program held at the Tuesday meeting of the Donner Troop of Girl Scouts, having completed their tenderfoot rekuirements.

A play was presented by Amanda Close, Donna-McReynolds, Violette Dohme and the author, Dorette Rose. Refreshments were served at the close of the meeting.

Guests included Mesdames Rose, Fred Jensen and son; Armon Close and son.

The August 9 meet was devoted to learning songs and dances, led by girls who attended the summer camping sessions at Meeks Bay. The following were presented with badges while at camp: Elethia Marquis, honor badys, camp crafter; Dorette Rose attained the first two, adding a nature award; Ruth Parkhurst and Donna McReynolds each won the camp crafter.

Tarzan

by EDGAR RICE BURROUGHS®

TARZAN AND THE RED KNIGHT CLASHED ON HORSEBACK, SO FIERCELY, THAT BOTH WERE HURLED TO THE GROUND...

NOW THE TWO ENEMIES CAME TOGETHER WITH FLASHING SWORDS. THE RED KNIGHT USED HIS GREAT SKILL TO PARRY THE APE-MAN'S LUNGING TACTICS AND SLOWLY FORCED HIM TO BACKTRACK--

UNTIL HE STUMBLED AND FELL! WITH A BLOOD-THIRSTY CRY THE RED KNIGHT CHARGED---!

BUT IN HIS EAGERNESS HE ABANDONED DEFENSE-- AND TARZAN GRIMLY SEIZED UPON HIS ADVANTAGE!

THE APE-MAN THEN ROSE, RIPPING OFF HIS HELMET IN TRIUMPH. "AH, THE BARBARIAN--" GASPED HIS DYING FOE. "SUCH IRONY INDEED---"

TARZAN LIFTED THE HELMET FROM THE RED KNIGHT'S HEAD-- AND STARED INTO THE LIFE-LESS FACE OF SIR ROGER!
